

H&B HONDA XL 650 V Transalp/2000-2007 Engine protection bar - black**Cena :****799,00 zł**Nr katalogowy : **502110 00 01**Producent : **Hepco&Becker**Stan magazynowy : **bardzo wysoki**

Średnia ocena :

Whether you ride more on rugged terrain, on country roads or in town; a **HEPCO&BECKER** guard is always the right choice. Your motorcycle is always effectively protected against an unexpected mishap.

And even more: If the bike falls over or makes unintentional contact with the ground, it can protect both, bike and rider from more serious consequences.

HEPCO&BECKER protection bars follow the lines of the bike perfectly, giving it a customized appearance. Made with extremely stable tube-in-tube construction. Depending on the vehicle model, various surface finishes are available.

- protection during pushovers or falls
- helps, when tying up the motorcycle
- premium surface finish
- easy assembly
- delivery: right side, left side, mounting kit and manual
- high quality german steel tube
- please check manual or bike specific note for more info
